Ebook Understanding and Deploying LDAP Directory Services (MacMillan Network Architecture & Development) by by Tim Howes

This comprehensive tutorial provides the reader with a thorough treatment of LDAP directory services. Minimal knowledge of general networking and administration is assumed, making the material accessible to intermediate and advanced readers alike. Designed to meet multiple needs, the first part of the book presents a general overview of the subject matter, and the next three sections cover detailed instructions for design, deployment, and integration of directory services. The text is full of practical implementation advice and real-world deployment examples to help the reader choose the path that makes the most sense for the specific organization.
